

# Candidates

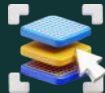

Borderless Tech Teams

## Tiago

### MID FULLSTACK DEVELOPER

Tiago is a skilled Software Engineer with over **3.5 years of experience**, primarily focused on backend development while also maintaining strong frontend and DevOps knowledge. Known for his collaborative approach, Tiago values openness and cooperation in his teams, promoting an environment where team members feel safe to ask questions and grow. In his current role, he continues to contribute to a SaaS platform's development, working with technologies like C# and .NET and designing new features to align with business goals. He has also developed tools for analyzing code impact to streamline testing. His previous experiences include roles in technology consulting, where he worked on microservices and event-driven architectures, and as a software engineer handling backend development with Spring and frontend work with ReactJS. Tiago also has experience teaching systems programming, earning high evaluations from students for his pedagogical skills.

### TECH STACK

**Programming Languages:** C#, Java, JavaScript, Python, SQL

**Backend:** .NET, Spring

**Frontend:** ReactJS, Angular, HTML/CSS

**Cloud/DevOps:** Microsoft Azure, Docker, CI/CD, Git/Gitflow

**Architecture:** MVC pattern, Microservices, Event-driven architectures

### Biggest achievement ★

Tiago's biggest achievement is his role in a technology consulting position, where he took on responsibilities beyond coding, including mentoring junior colleagues and managing Git and CI/CD processes. His contributions to building web applications and working with microservices architectures reflect his technical skills and readiness for leadership roles.
